Experience

Acton Institute // Grand Rapids, MI

Web Coordinator // 2010 - Present

- Develop and maintain Acton Institute's web presence.
- Developed and planned Acton.org site migration of 3,500+ pages to the Drupal CMS in conjunction with a local software development firm.
- Developed and maintain the Acton Institute iOS and Android applications.
- Developed modern Wordpress theme for Acton's PowerBlog.
- Design and program websites for Acton Institute's initiatives.
- Use version control software (Git and Subversion).
- Use the following web technologies on a day-to-day basis: Drupal open source CMS, PHP, CSS, Javascript, Objective C, Java.
- Optimize websites with best-practice SEO.
- Maintain remote Slackware Linux web server and local Mac OSX web server.
- Manage Acton Institute's social media.

Red Five IT // Muskegon, MI

Web Designer / Developer // 2008 - Present

- Design websites using Drupal, Joomla, PHP, Adobe Photoshop, and Adobe Dreamweaver.
- Maintain remote Fedora Linux server.
- Work with clients to build integrated web systems.

Grand Haven Public Schools // Grand Haven, MI

Technology Intern // 2008 - 2009

- Worked with network administrator to improve network security.
- Created Windows batch files to target and eliminate malicious software.
- Performed computer hardware upgrades in 10 different schools in Grand Haven.
- Installed new network printers throughout all Grand Haven schools.
- Unpacked and setup new HP ProLiant servers.

Enemy Territory Fortress

Level Designer & Artist // 2004 - 2005

- Worked with a team of game developers to port the Quake 3 Fortress mod to Wolfenstein: Enemy Territory.
- Designed and updated all game levels using GTKRadiant.
- Designed front end user interface with Adobe Photoshop.
- Used Subversion to maintain version control.

Education

BS, Computer Information Systems, Minor: Business // 2009
Grand Valley State University // Allendale, MI

Skills

Programming Languages

PHP, MySQL, Javascript, Java, Objective C, HTML, CSS, XML, JSON, COBOL, Python, Visual Basic

IT Skills

- Systems Analysis and Design including SDLC
- Network Setup and Administration
- IT Project Management
- Object Orientated Programming, Relational Databases
- Business Minor with Accounting, Management, and Marketing

Communication

I inquire for additional feedback rather than accepting work at face value. I enjoy communicating with users directly and discussing their point of view.

Graphics

When designing for games, the web, or publication, I seek out effective designs that heighten the interest of the viewer. I often redesign images and objects to obtain the perfect effect or shape.

Hardware

Advanced PC construction and repair, home and office network wiring and setup.

Software Experience

- Drupal
- Wordpress
- Joomla
- jQuery
- Adobe Dreamweaver
- Adobe Photoshop
- Netbeans IDE
- Eclipse IDE
- XCode 4 IDE
